FIRE SAFETY MANAGEMENT

*bringing service & compliance  
together for your protection*

## FIRE AWARENESS TRAINING

FROM \$600 + GST

Our staff fire awareness education, includes simple theory of prevention, containment and safe evacuation, followed by practical hands-on use of a fire extinguisher using our unique and safe gas operated training unit. Fire warden training includes assessment and management of emergency situations such as smoke, fire, hazardous environment, storm damage and much more.

Our training program includes investigation and management of fire & smoke alarms and the use of the occupant warning or EWIS system.

Live fire awareness training is carried out using our unique and safe gas operated fire simulator.

## FIRE EVACUATION DRILLS

FROM \$400 + GST

Evacuation drills can be conducted using the fire alarm system and other scenarios. We offer to use our fire training smoke unit to simulate a real fire event.

Fire evacuation drills are an effective method of evaluating the effectiveness of documented evacuation procedures and wardens.

Survival Solutions brings over 20 years professional experience of fire awareness and emergency management education to your business.

## FIRE EVACUATION DIAGRAMS

FROM \$600 + GST

The purpose of evacuation diagrams is to help facilitate effective and informed evacuation of staff, clients and any other building occupants in the event of an emergency, ensuring sound building orientation, exits and evacuation routes and a designated emergency assembly area.

Survival Solutions can undertake the complete design including on-site assessment, mark up and installation or we can use yours to help to produce complete evacuation diagrams thus reducing cost.

Evacuation diagrams are designed in accordance with Australian Standard AS 3745:2010
